Registration address	
Phone number	
E-Mail address	
Note: I guarantee that my child and me have no symptoms of COVID-19 disease.	<input type="radio"/> Yes
<p align="center">Return from a high risk area</p> <p>The quarantine period is 10 days for people entering the country, but it can be shortened if it is transmitted via the entry portal of the Federal Republic of Germany at www.einreiseanmeldung.de. The quarantine ends at the time of transmission. No quarantine is required if the proof is submitted prior to entry. In the case of the submission of a test certificate, the underlying test may have taken place no earlier than five days after entry. For children who have not yet reached the age of twelve, segregation ends automatically five days after entry.</p>	
Proof of recovery / proof of vaccination	<input type="radio"/> is available
Negative PCR test or negative antigen test upon entry -or-	<input type="radio"/> is available
Negative PCR test or negative antigen test five days after entry	<input type="radio"/> is available
<p align="center">Only required if returning from a virus variant area</p> <p align="center">The quarantine period is 14 days for travelers and cannot be shortened.</p> <p align="center">Note: If the affected virus variant area is downgraded during the segregation period in Germany, the regulations for this type of area apply to the termination of segregation.</p>	
Immediately after entering the country, I / we have been in häusl for at least 14 days. Enter quarantine (A test to end the quarantine is not possible.) Also upon entry: negative PCR test (max. 72 h) or negative antigen test (max. 48 h) - proof of vaccination / recovery is insufficient!	<input type="radio"/> Determination fulfilled
